

Asset Server Developer - Unity Technologies

A position as an Asset Server Developer is now open for a highly qualified and motivated professional who is ready to make a significant contribution to expanding the leading game development tool provider for high-end web 3D, online, MMO, and mobile games. In this developer role you will be working on extending the company's existing Asset Server product.

About the Engine: Unity is a flexible 3D development application that combines usability and raw engineering power. As a company, we are focused on evolving this technology, constantly driving it forwards and upwards. We aggressively reinvest in development to keep Unity moving and growing at a radical pace, expanding usability, power, and platform reach. The Unity Asset Server is a full built-in version control solution for Unity projects.

Duties & Responsibilities:

- Maintaining the server back end and installers for Linux, Mac OSX and Windows.
- Implementing support for branching and merging of projects.
- Creating a plug-in service for backing up existing projects.
- Optimize the communication between server and client in order to reduce the number of round trips.

Skills & Experience:

- Ability to demonstrate strong design and development skills (C/C++/C#).
- Experience in database design and development using PostgreSQL.
- Solid understanding of configuration management and modern version control systems. Actual experience in implementing version control systems is an advantage.
- A Computer Science or related technical degree is preferred.

About the Company: Unity Technologies offers a highly technical and product driven work environment, where exceptional people from all over the world are entrusted to find smart solutions for difficult problems. We embrace the concept of meritocracy, which means you can expect competitive salary (including stock options) appropriate to qualifications, hard work and brilliance. This is a rare opportunity to become part of a sparkling team of individuals, who each bring passion and excellence to their work.
