

Forum and Community Developer- Unity Technologies

A position as Forum and Community Developer is now open for a highly qualified and motivated professional who is ready to make a significant contribution to expanding the leading game development tool provider for high-end web 3D, online, MMO, and mobile games.

About the Engine: Unity is a flexible 3D development application that combines usability and raw engineering power. As a company, we are focused on evolving this technology, constantly driving it forwards and upwards. We aggressively reinvest in development to keep Unity moving and growing at a radical pace, expanding usability, power, and platform reach.

Duties & Responsibilities:

- Drive the Forum and Community sites to excellence.

Skills & Experience:

- Brilliant Ruby-on-Rails skills.
- Strong sense of web 2.0 development.
- Great respect for design and usability.
- Good knowledge of SQL.
- Experience with online community development and complex data driven websites.
- Knowledge of JavaScript and AJAX libraries, social network APIs, the works.
- Strong feeling for CSS, webdesign.
- Some experience with perl, PHP, Photoshop, Linux servers, ...everything helps!

About the Company: Unity Technologies offers a highly technical and product driven work environment, where exceptional people from all over the world are entrusted to find smart solutions for difficult problems. We embrace the concept of meritocracy, which means you can expect competitive salary (including stock options) appropriate to qualifications, hard work and brilliance. This is a rare opportunity to become part of a sparkling team of individuals, who each bring passion and excellence to their work.

If you see yourself in a position to join our ranks, please send your CV to: Alexandra Mariner at jobs@unity3d.com.
